SUMMARY

Computer Science undergraduate specialising in Machine Learning and Artificial Intelligence, with strong software development, automation, and AI integration skills. Experienced in Generative AI workflows, data-driven product features, and scalable user-centric solutions. Passionate about building practical AI-powered software that solves real-world problems through model implementation, experimentation, and continuous improvement.

EDUCATION

SRM Institute of Science and Technology

Bachelor of Technology in Computer Science Engineering

University of Bristol, Bristol

Higher Education in Aeronautical Engineering

Chennai, India

Oct. 2022 – May 2026

England, United Kingdom

2021–2022

EXPERIENCE

Cosmic Zenith Solutions Ltd

Software Developer Intern

Delhi, India (Hybrid)

June 2025 – May 2026

- Engineered full-stack features for www.Casafurnea.com, a premium e-commerce platform, utilizing Next.js, TypeScript, and Tailwind CSS, including a custom WhatsApp-integrated product catalog and seamless quotation-request workflow.
- Architected RESTful APIs for scalable product, inventory, and order management, while developing a dynamic page builder and comprehensive category modules to optimize administrative operations.

PROJECTS

Skyflow — Premium Weather Dashboard

skyflow-application.vercel.app/

React · Vite · Node.js · Vercel Serverless Functions

- Developed a premium weather dashboard using React, Vite, and Node.js, integrating WeatherAPI.com for real-time conditions, 24-hour forecasts, 3-day outlooks, AQI metrics, astronomical data, and severe weather alerts.
- Implemented dynamic condition-based themes, metric/imperial unit toggling, geolocation search, and persistent localStorage bookmarks for a responsive user-centric experience.

Campus Cravings — Recipe Collection Website

luv219.github.io/Recipe-Collection/

HTML5 · CSS · JavaScript · Responsive Design

- Developed a responsive recipe collection website using HTML5, CSS, and JavaScript, featuring live search, dark mode, print-friendly pages, hover animations, and structured student-friendly recipe categories.

Safe PASS — Password Manager

safe-pass-p1.vercel.app/

Next.js · React · TypeScript · Clerk · Tailwind CSS

- Built a secure Next.js password and card manager with Clerk authentication, React Hook Form/Zod validation, copy-to-clipboard actions, dark mode, and a responsive protected dashboard.

CERTIFICATES

IBM Introduction to HTML, CSS & JavaScript, Coursera (2025)

IBM Introduction to Software Engineering, Coursera (2025)

Introduction to Programming Using JavaScript, Udemy (2021)

SKILLS

Programming Languages: Python, JavaScript, TypeScript, C++, SQL, R

Frontend: React, HTML5, CSS3, Tailwind CSS

Backend & APIs: Node.js, Next.js, REST APIs

Databases: MySQL, PostgreSQL, MongoDB

Software Engineering: Data Structures, Algorithms, Object-Oriented Programming, Git/GitHub, Debugging, Testing, Deployment

LeetCode Profile: leetcode.com/luvvv19
